

Use of environmentally friendly consumables

Commitment

FLORIS Catering GmbH undertakes to take care of environmentally friendly aspects of the low levels of pollutants and the recyclability of the corresponding materials when introducing finishing and consumable materials into event and operating facilities.

Environmentally friendly consumables at FLORIS

Event decorations at FLORIS are reusable or biodegradable. We pay particular attention to the use of natural and pollutant-free materials.

FLORIS only uses biodegradable cleaning agents to clean its business premises, inventory and work equipment. Preferred FLORIS uses refill products.

Consumables such as our FLORIS paper napkin consist of 100% renewable and recyclable raw materials from certified and controlled degradation.

Responsibility

The ambassador for environmental management of FLORIS Catering GmbH is responsible for compliance and control of the voluntary commitment and reports directly to the management.

The management hereby confirms this commitment.
