

The FLORIS 3D-Food-Printer

Our great all-rounder
for 3D food printing

SET ACCENTS WITH 3D-FOOD-PRINTER

The 3D-Food-Printer is the next highlight at your event!

Whether at the dessert buffet or live cooking: Impress your guests with individual food creations. Our 3D-Food-Printer creates sweet and savory delicacies in different patterns and shapes.

We print e.g. logos, slogans, greetings, give-aways, names, jubilee texts, busts and forms such as couples, animals or portraits – according to photo templates.

For our personalized creations we use chocolate / couverture, marzipan, fondant (sugar), buttercream, but also pasta, mashed potatoes and hearty cream mixtures, e.g. wasabi.

If you would like to integrate the 3D-Food-Printer into your event, we will gladly prepare an individual offer for you.

Prices on request.
